

# Solar Photovoltaic Panel Promotion Program

## Overview

---

There are four main places to check for rebates: Your state or local government, your utility company, your installer, and your equipment manufacturer. Local and utility-sponsored rebates often provide the most significant savings—sometimes over \$5,000. The SOMAH program provides financial incentives for installing photovoltaic (PV) energy systems on multifamily affordable housing. To learn more, visit the SOMAH website. The Disadvantaged Communities – Single-Family Solar Homes (DAC-SASH) program is administered by GRID Alternatives, a nonprofit. However, homeowners can still benefit from the 48E “Clean Electricity Investment Credit” claimed by businesses that own and operate residential solar systems. This arrangement is called Third-Party Ownership (TPO) and includes the following: In third-party owned solar, the business claims the 48E. With the federal solar tax credit ending much sooner than expected — you now only have until Dec. 31, 2025, to install a system and get the 30% solar tax credit — it's definitely in your best interest to take advantage of all the solar incentives available to you. Many states and utilities also provide additional solar panel rebates or performance-based incentives that can lower costs by another 10% to. There are two main types of solar energy technologies—photovoltaics (PV) and concentrating solar-thermal power (CSP).
