

Solar Y-type three-way inverter

Overview

It connect three solar panels in parallel with the MC4 3-way set - includes triple Y-type connectors for efficient power distribution. This solar connector ensures IP67 waterproof sealing, supports 1000V DC & 30A current, and fits 2.5mm²/4mm²/6mm² solar panel wire connectors. Deye's three phase string inverters represent our premium line of power conversion technology designed specifically for commercial, industrial, and large-scale solar installations. These robust inverters efficiently transform DC electricity from multiple solar arrays into three-phase AC power. After all, most crystalline silicon (c-Si) PV modules have a short-circuit current (Isc) rating in the 8-9 A range and carry a 15 A-series fuse rating. Equipped with external inductors, ensures efficient heat. is the new generation of intelligent PV system monitoring. This new monitoring platform will empower you like never before. This pair includes 1 male to 3 female (M/FFF) and 1 female to 3 male (F/MMM) cable connectors.

Solar Y-type three-way inverter

MC4 3-Way Solar Connector Set , Triple Y Type PV Connector

It connect three solar panels in parallel with the MC4 3-way set - includes triple Y-type connectors for efficient power distribution. This solar connector ensures IP67 waterproof sealing, supports 1000V ...
