

# Solar battery cabinet pre-pressing equipment

## Overview

---

In-stock and custom battery enclosures that handle all weather environments, maintain productivity and offer specific designs to help ensure cooling of critical components and allow for the safe release of the gasses that may be released by solar battery components. Most of our enclosures are designed to NEMA3R and rated for outdoor. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is. Part Number: BBA-1M Manufacturer: OEM Material: Aluminum (Standard), Stainless Steel Available Finish: Mill (Standard), Powder Coat UL Approved: Yes NEMA Rating: 3R, 4, 4X Overall Dims (HxWxD - IN): 20. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, Bison Profab manufactures custom NEMA 3R enclosures. Battery enclosures/cabinets that provide storage, security and reliable, warranted long term sustainability.
