Overview

Solar energy leaders in Greece, including PPC Renewables SA, Terna Energy SA, and Mytilineos, compete through project scale, innovative deployment, and strategic alliances. Greece has transformed into one of Europe's most dynamic solar energy markets, with the government targeting 61% renewable energy by 2030. The country's exceptional solar resources - boasting 2,500-3,000 annual sunshine hours - combined with progressive policies have attracted significant investment. Sunlight Group Energy Storage Systems specializes in energy storage solutions, particularly focusing on lithium-ion and lead-acid batteries that support renewable energy systems. With a commitment to sustainability and over 30 years of experience, the company plays a crucial role in the transition. Solar power is a critical component of Greece's energy transition, and the country's renewable energy sector is expanding rapidly. 17%, presents a compelling investment opportunity.
