

Solar panel 390w size

Overview

The standard size of 390 watt solar panels is 72 cells, and its dimensions are compact enough to set an installation in a small area - for example, on the roof. It's engineered to perform in low-light conditions and built to handle extreme weather, including heavy snow and strong. The new high-performance module Q. ANTUM and cutting edge cell interconnection. This 1500 V IEC/UL solar module with its 6 busbar cell design ensures superior. What are the dimensions of the panel?

How long is the warranty on the panel?

Which panels do you recommend for RV, marine?

Can this panel be used with a 12v system?

Can I pick up this panel from your fulfillment center to save on shipping?

How do I connect these panels?

How many panels do I need?

. Advanced Technologies: Utilizes TOPCon cells, 210mm solar wafers, multi-busbar (MBB) technology, and half-cut cells to boost power, reduce losses, and improve current flow. As we enter 2025, understanding the capabilities and limitations of the TSM-390DE09C. It is believed that the efficiency of such an autonomous solar system depends on the intensity of sunlight.

Solar panel 390w size

Trina Solar 390 Watt Mono Solar Panel, Black Frame

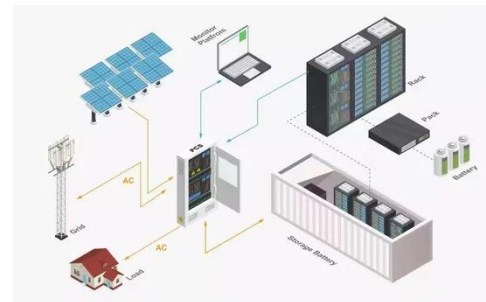

Small in size, big on power Small format module allow greater energy generation in limited space. Multi-busbar technology for better light trapping effect, lower series resistance and improved current.

Trina 390W Solar Panel 120 Cell

TSM-390-DE09C07

More Power and Efficiency
 Improved Efficiency at High Temperatures
 Quality and Reliability
 Low Degradation For Increased Lifespan
 Improved Frame Design
 Stunning Black Aesthetics
 An already high efficiency of 20.3% is further enhanced by PERC technology. By adding a solid PID resistance and special glass lamination on top, the manufacturer ended up with an efficient and very durable model. Under standard test conditions, TSM DE09 C07 outputs 390 W of power. See more on [a1solarstore](#)
 Brand: Trina Solar
 Rated Power Output: 390 W
 Length: 69.06in
 Voltage (VOC): 40.8V
