

Solar photovoltaic panel host socket

18650 3.7V
Li-ion
RECHARGEABLE BATTERY

2000mAh

Overview

For a solar power installation, several types of sockets are typically needed, including 1. Our Solar Panel Sockets resolve these issues with high-contact reliability and sealed builds that support grid-tied and off-grid installations. When connectors fail in tough weather, your uptime and output drop. We use silver-plated contacts and MC4 locking to deliver strong connections and long. Photovoltaic Connectors are designed specifically to be used with solar panels. Connectors do a lot of work in helping solar generators produce maximum power, especially by combining different parts of the solar system together.

Solar photovoltaic panel host socket

Panel Receptacles , Stäubli

The MC4 and MC4-Evo 2 panel receptacle can be mounted using screw threads. This provides an ideal solution for using your MC4 or MC4-Evo 2 connector as a string input for an inverter or a MLPE device.
