

# Solar rotating tracking bracket price

## Overview

---

The price range varies significantly based on these factors, but on average, homeowners can expect to spend anywhere from \$200 to \$2,000 for a typical solar rotating bracket. Notably, the material type plays a crucial role in determining the overall expense. [Save floor space] Two sets of tracking brackets can hold 2-8 solar panels depending on the size. Compared with traditional tripod brackets and ground brackets, tracking brackets can save floor space, leaving the maximum space for family and garden, while also making the overall layout more. Mounting options fall into the main categories below. 68KWh per day under 4 hours full sunlight.
