

# St Lucia special energy storage battery model

## Overview

---

The project, which will be the island's second industrial-scale solar initiative, includes 10 MW of solar power and an energy storage system with 13 MW capacity using two-hour lithium-ion batteries. Source: PV Magazine LATAM. Industrial energy storage battery systems offer a game-changing solution by: "Caribbean industries could save up to 40% on energy costs through proper storage integration. According to an announcement released by the. Saint Lucia is taking a major step toward grid resilience with a newly announced 10 MW solar-plus-storage project, featuring 26 MWh of lithium-ion battery capacity. In a significant move toward energy.
