Tbilisi energy independence

Overview

TBILISI, October 16 – Georgia's government says it wants to make the country fully energy independent by 2030, a goal that Prime Minister Irakli Kobakhidze describes as achievable if new large-scale hydropower plants are built and renewable energy sources are expanded. In an interview with Gulf. Gross Energy Group (GEG), founded by Anguli Tkebuchava and led by his sons, Davit and Irakli, has become a cornerstone of Georgia's energy infrastructure. The company has spearheaded projects totaling approximately 1,000 MW in capacity, with investments exceeding two billion dollars. With its first. Euro-Atlantic institutions. The national grid operator recently reported 127 hours of renewable curtailment in Q1 2025 alone—enough wasted energy to power 12,000. At the 11th Green Energy Corridor Ministerial, held in Tbilisi with the participation of representatives from Georgia, Azerbaijan, Romania, and Hungary, Minister of Economy and Sustainable Development Mariam Kvrivishvili discussed ongoing reforms in Georgia's energy sector, along with the.
