

The eye of a wind turbine

Overview

The world's first wind turbine with a viewing pod reached by elevator was built on a ski resort mountain just in time for the 2010 Vancouver Winter Olympics. It was considered such an important feat that it was given an important-sounding name: "Eye of the Wind. Current Grouse Mountain Regional Park trail hours are: 7:00am - 3:00pm. Due to a private event, public access to the Peak Chalet will be limited from 7:30am - 10pm on Friday, February. Located on Grouse Mountain, The Eye of the Wind offers panoramic views of Vancouver. The sky-scraping tower measures an impressive 65 meters tall. Not only is this unique attraction fully functional, but it offers an expansive view that will leave you positively spellbound. Standing 65 meters tall atop Grouse Mountain, this monumental wind turbine is crowned by a transparent observation pod that hovers above the alpine treetops like a. The mountaintop wind turbine boasts a viewing deck — and a fair share of controversy.
