

The largest energy storage project in kathmandu

Overview

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organisation (UNIDO) to install one of Nepal's largest energy storage systems, with a total battery capacity of 4MWh. The company announced that this initiative aims to help industries and businesses reduce diesel consumption and transition toward decarbonisation through smart grid development. This initiative, supported by UNIDO, seeks to replace diesel generators with a solar-powered battery storage.
