

Timor-Leste Energy Investment Energy Storage Project

Overview

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP. ITOCHU Corporation (headquartered in Minato-ku, Tokyo; President & COO: Keita Ishii; hereinafter "ITOCHU") is pleased to announce that, together with EDF power solutions ("EDF ps"), a subsidiary of the EDF Group (Électricité de France), it has signed a Power Purchase Agreement ("PPA") with. Global law firm DLA Piper, as part of an advisory team led by the Asian Development Bank (ADB) has advised Eletricidade de Timor-Leste (EDTL) on a power purchase agreement with a consortium comprised of Électricité de France and Itochu for the development of Timor-Leste's first utility-scale solar. Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage. According to the ADB, the project involves the design, construction, maintenance, and operation of a 73.7 MWac grid-connected solar photovoltaic (PV) power plant, an 80.2 MWh Battery Energy Storage System (BESS), and other ancillary facilities including a substation and connecting 150kV. Dili, 08 July 2025 – In a significant step toward enhancing energy resilience and promoting sustainable infrastructure in the health sector, a high-level delegation led by H.
