

Tonga micro solar power generation system

5 Years warranty

Overview

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across its outer islands, in a bold move to reduce its dependence on expensive diesel imports and improve electricity access for remote communities. Currently, around 91 per. Tonga Energy Road Map 2010 launched as a 10-year plan focused on reducing Tonga's vulnerability to oil price fluctuations and improving access to modern energy services, and achieving environmental sustainability. National Energy target by 2020, 50% of renewable energy (Solar and Wind) share on. A \$53.2 million minigrid was commissioned on Niuafu'ou, Tonga's northernmost island, to provide clean, reliable power 24 hours a day. In Micronesia, Yap island seeks bids on a 79 kW solar plus storage minigrid system. As part of the co-financed Tonga Renewable Energy Project, this grid will provide clean and efficient electricity up to 24 hours a day, significantly. TREP 03 Lot 2 - Solar PV/BESS (100% RE) micro-grid, including low voltage distribution system for 'O'ua, Tungua, Kotu, Mo'unga'one, Niuafu'ou TREP 03 Lot 2 is leading by MEIDECC.
