

Turkish Photovoltaic Folding Container Automatic Type

Overview

Dubbed Solarcontainer, SolarCont has devised a photovoltaic power plant developed as a mobile power generator with collapsible photovoltaic modules. The unfolded panels can reach up to 120 meters in length, and there are 240 solar panels that can be installed. Would you like to generate clean electricity flexibly and efficiently and earn money at the same time?

With Solarfold, you produce energy where it is needed and where it pays off. at full. Solar folding containerss have emerged as an innovative solution for both energy storage and transportation, attracting significant attention in the renewable energy sector in recent years. Rapid deployment, high efficiency, scalable energy storage, remote monitoring support.

Turkish Photovoltaic Folding Container Automatic Type

mobile solar container stores photovoltaic panels that fold and unfold

For the folding and unfolding of the photovoltaic panels, the module works electrically using an automatic conveyor system, activated with a click of a button.
