

# Vienna digs deep into energy storage batteries

## Overview

---

The event takes place on 10–11 November 2025 in Austria Trend Hotel Savoyen (Vienna) and explicitly frames energy storage as a core theme alongside network modernization and data-driven market processes, underscoring the importance of the functional coupling of flexibility resources. The event takes place on 10–11 November 2025 in Austria Trend Hotel Savoyen (Vienna) and explicitly frames energy storage as a core theme alongside network modernization and data-driven market processes, underscoring the importance of the functional coupling of flexibility resources. The Energietage 2025 convene three interlinked specialist conferences - Storage, Grids, and Data Management - under a single umbrella, positioning the event as a year-end focal point for Austria's electricity sector. The event takes place on 10–11 November 2025 in Austria Trend Hotel Savoyen. Over three days, the International Flow Battery Forum (IFBF) will present and discuss the latest trends in the world of flow batteries, a non-lithium energy storage technology which is a very important asset for the uptake of long duration energy storage - and the accomplishment of renewable energy. Enspired, Vienna's AI-powered battery energy storage system (BESS) optimizer, has secured over €40 million in extended Series B funding at an undisclosed valuation, with Future Energy Ventures joining alongside returning investors Zouk Capital, EnBW New Ventures, Banpu NEXT, PUSH VC, and 360. As Vienna accelerates its renewable energy transition, energy storage projects have become critical infrastructure. This article explores the latest bidding strategies, technical requirements, and market opportunities shaping Vienna's energy storage landscape. Why Vienna Leads in Energy Storage.
