

# Wangdian Solar Power Generation

## Overview

---

The project, at an altitude of 5,228 meters, is the world's highest-elevation solar installation, surpassing the first phase, which was built at 5,100 meters. Previously, the highest utility-scale solar-plus-storage project in the world was another installation at 4,700 meters in. China's largest tidal flat photovoltaic (PV) energy storage station, constructed by China Huadian Corporation Ltd., has officially commenced operations on the salt-alkali tidal flats of the shores of Bohai Bay. The second stage includes 170,000 photovoltaic panels with a total capacity of 100 MW located at an altitude of 5,228. Global Solar Power Tracker, a Global Energy Monitor project. Read more about Solar capacity ratings. 05 million kilowatts. Huadian, PowerChina switch on 1 GW of solar on salt-alkali tidal flats Huadian Group and PowerChina have activated a 1 GW solar project on salt-alkali tidal flats in China's Shandong province, paired with 200 MW/400 MWh of storage. The facility features PV modules installed above brine pools.
