

Water dripping under photovoltaic panels

Overview

Signs of a roof leak under solar panels include water stains, damp odors, water pooling, and decreased energy production. To fix a roof leak, identify the source, repair the roof, inspect and upgrade the mounting system, and reinstall and seal the solar panels properly. After all, your solar installation was meant to enhance your home's efficiency, not compromise its integrity. But don't worry—you're not alone, and this issue is more common than you might think. Understanding. Solar panel roof leaks combine the complexity of roofing and electrical systems, demanding careful diagnosis and coordinated repairs. Energy Loss: Issues like panel discoloration.
