

What are the energy storage power stations in Macedonia

Overview

North Macedonia's plan for 2026 includes 67 power plant projects of at least 1 MW each, for investments totaling an estimated EUR 3.74 billion, and 96 accepted proposals for standalone and co-located energy storage facilities, worth EUR 1. Minister of Energy, Mining and Mineral Resources. As North Macedonia accelerates its transition to renewable energy, lithium battery storage systems are emerging as a game-changer. The deadline for applications is March 24. But here's the kicker—this isn't just another energy project. Find out more in our daily focus, 15–18 September.
