

What is the customs code for photovoltaic panels

Overview

The HS code for solar panels is 8541. 40, encompassing various types of solar photovoltaic devices, along with their components. Specifically, this categorization includes modules, panels, and solar cells that convert solar energy into usable electricity. The HS code helps in international trade by. Export photovoltaic Components are a promising trade activity, especially in the context of the accelerating global energy transition. Combined with the latest international trade information in 2025 (such as HS code confirmation, Tax Rebates Adjustments, tariff developments, and quality-standard. On Febru, the President signed a Proclamation “To Continue Facilitating Positive Adjustment to Competition from Imports of Certain Crystalline Silicon Photovoltaic Cells (Whether or not Partially or Fully Assembled Into Other Products)” under Section 201 of the Trade Act of 1974. Summary: This article explains the HS code for solar photovoltaic panels, its importance in global trade, and practical insights for businesses.

What is the customs code for photovoltaic panels

Photovoltaic Components Export Guide: HS Codes, Declaration ...

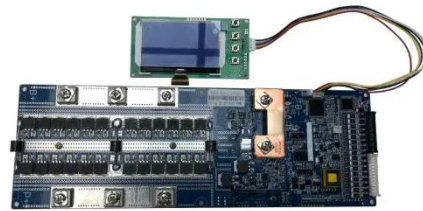

Heading 85.41: Solar photovoltaic panels (solar cells) Including silicon-barrier-layer photovoltaic cells, solar cells mounted in components or assembled into blocks.
