

# Will photovoltaic panels be damaged by bumps How to repair them

## Overview

---

Broken solar panels pose a serious fire and safety risk and must be removed and replaced. To replace a broken solar panel, contact your solar developer – do not attempt to do it yourself. Your power inverter may also produce an error message if it's designed to do so. Or, you might. Hail, falling branches, electrical surges or water can cause cracked or broken solar panels. Still, you should know the reasons why they break, how to help prevent breakages, and what to do if it. The first step in addressing solar panel damage is recognizing the signs that indicate your panels may be compromised.
