

# Wind solar and energy storage integrated project

## Overview

---

With a best-in-class team of energy professionals, Hecate Energy develops power delivery solutions that bring together renewables, dispatchable generation, storage, and flexible grid infrastructure—purpose-built to provide reliability, flexibility, and scale, at speed. EDF power solutions offers standalone or fully integrated energy solutions for our customers. Fast, reliable grid capacity Dependable energy with renewable attributes Stable long-term contracted power Long-term partnerships for land use Economic development.
