This is a strong, durable, and simple ground mounting system for PV panels. The PV panels are mounted to commercially available aluminum rails made for easy mounting of PV panels. The rails are supplied by companies like IronRidge or SunCommon—a B Corp-certified company offering solar and other clean-energy solutions throughout Vermont and New York's Hudson Valley region—debuted its timber-framed solar canopy in 2017. Although technically, not really free. I bet it will take years to get a positive ROI on this investment. In this in-depth article, I'll take you on a journey through the world of timber framing and solar integration, sharing.
