

Xiong District Photovoltaic Support Base

Overview

A distributed photovoltaic project with an installed capacity of 3.1 megawatts has been operational in the zone since the end of last year, fully utilizing 30,000 square meters of rooftops, according to Datang Environment Industry Group Co, the operator of the project. Xiong'an New Area in Hebei province marked its eighth anniversary on April 1. Almost a decade on, this grand urban planning project is upholding its commitment to green, low-carbon development in its energy system. YANG SHIYAO/XINHUA Looking at the sprawling Xiong'an Business Service Center complex from a distance, the tiles on the roofs of some of its buildings appear no different from. XIONG'AN, Hebei, April 1 (Xinhua) -- Shaped like a dew drop on a lotus leaf, Xiong'an Railway Station stands as an architectural marvel to many. What is extraordinary is that this station can generate power on its own., a subsidiary of State Power Investment Corporation (hereinafter referred to as "SPIC"), successfully won the bid for plot XACR-2025-013 in the headquarters area of the Xiong'an. Significant progress in renewable energy and sustainable urban development marks the eighth anniversary of Xiong'an New Area. In April 2017, China announced a plan to establish the Xiong'an New Area, which spans the Rongcheng, Anxin and.
