

# Zambia backup solar container system

CE UN38.3 

## Overview

---

Described as Zambia's inaugural solar facility equipped with battery storage, the project holds an estimated value of \$65 million. It is slated to commence commercial operations by September 2025, aiming to supply electricity to a minimum of 65,000 households. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. [pdf] During construction, the project created over 1,200 jobs. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. These brands include Mercury, Blue. [pdf] The global solar storage container market is experiencing explosive growth, with. The newly inaugurated Choma Solar plant, combining 60 MW of solar capacity with 20 MWh of battery storage, marks a turning point for energy access and reliability in rural areas.
