

# Zambia s grid-connected solar panels

## Overview

---

Zambia on Monday launched a 100-megawatt (MW) solar photovoltaic (PV) project, the country's largest grid-connected solar initiative to date, marking an important step toward addressing its ongoing energy deficit. State-owned power company Zesco has completed the 100 MW Chisamba solar farm. The newly \$100 million Chisamba solar plant in Zambia is set to offer stable power supply for the country's mining operations. Kiyona Energy plans to develop. Zambia has taken a significant step toward strengthening its national grid and mitigating chronic power shortages with the official launch of a 20-megawatt (MW) solar photovoltaic (PV) power plant. Developed by the state-owned North-Western Railway Development Corporation (NRDC), this project marks.
